

WE ARE GLAD TO ANNOUNCE THAT WE ARE NOW AN ENVIRONMENTALLY FRIENDLY ORGANIZATION

LET'S NURTURE THE NATURE, SO THAT WE CAN HAVE A BETTER FUTURE.

Running an environmentally friendly business helps us reduce our impact on the environment and preserves natural resources. Our business can help the environment in many ways.

There are surprisingly huge amounts of people, businesses, communities and NGOs that would like to do more to conserve and protect our natural resources, but they don't know where to begin with becoming more efficient environmentally friendly. Understanding what makes each of these aspects of our world part of the process of changing and conserving our resources.

Being environmentally friendly simply means having a lifestyle that is better for the environment. It's all about taking small steps towards mother earth so as to make this planet a better place for our communities and generations to come.

The first step is to begin to understand the basics of what each part of life can do to become more environmentally friendly. The next step is to begin to learn to make different choices on a personal level that start to change your awareness and consumption of resources. The changes are surprisingly easy to make.

WE WILL DO OUR ROLE THROUGH THE FOLLOWING:

- 1- **Become more aware about natural resources**
- 2- **Practice conservation**
Turn off the lights as we leave a room, unplugging devices not in use, use sunlight when it is a choice, etc.
- 3- **Plant more trees**
- 4- **Conserve energy**
Change all our light bulbs to LED light bulbs, run copiers in batches to reduce the time our copier spends in high-power mode
- 5- **Conserve water**
Keep the running tap closed while kids are brushing teeth, using water saving appliances
- 6- **Buy locally grown products**
- 7- **Composting**
Use organic kitchen waste and converting it into rich nutrient food for our plants that helps them grow
- 8- **Educate kids at our kindergarten**
Plan future activities to include conservation practicing
- 9- **Conserve paper**
Convert all our internal reports, parents' reports, toilet reports & attendance sheets to smart technology solutions
- 10- **Invest in environmentally friendly business solutions**

The environmentally friendly people are those who move through life with an awareness of how natural resources are used to create and support their life. They recycle, conserve water & fuel and make other choices that not only lessen their impact on the environment, but also support organizations that are working towards being more environmentally responsible.
